Its scope will include the following topics:</p> <ul style="list-style-type: none"> <li>• Production and supply of health services;</li> <li>• Demand and utilization of health services;</li> <li>• Financing of health services;</li> <li>• Determinants of health, including investments in health and risky health behaviors;</li> <li>• Economic consequences of ill-health;</li> <li>• Behavioral models of demanders, suppliers and other health care agencies;</li> <li>• Evaluation of policy interventions that yield economic insights;</li> <li>• Efficiency and distributional aspects of health policy;</li> </ul>	<p><a href="https://www.journals.elsevier.com/journal-of-health-economics">https://www.journals.elsevier.com/journal-of-health-economics</a></p>
<b>International Journal of Technology Assessment in Health Care</b>	<p><i>International Journal of Technology Assessment in Health Care</i> serves as a forum for the wide range of health policy makers and professionals interested in the economic, social, ethical, medical and public health implications of health technology.</p>	<p><a href="https://www.cambridge.org/core/journals/international-journal-of-technology-assessment-in-health-care">https://www.cambridge.org/core/journals/international-journal-of-technology-assessment-in-health-care</a></p>
<b>Value in Health</b>	<p>Value in Health contains original research articles for pharmacoconomics, health economics, and outcomes research (clinical, economic, and patient-reported outcomes/preference-based research), as well as conceptual and health policy articles that provide valuable information for health care decision-makers, as well as the research community. As the official journal of ISPOR, Value in Health</p>	<p><a href="https://www.valueinhealthjournal.com/">https://www.valueinhealthjournal.com/</a></p>

	provides a forum for researchers, as well as health care decision-makers, to translate outcomes research into health care decisions.	
<b>Patient Preference and Adherence</b>	An international, peer reviewed, open access journal that focuses on the growing importance of patient preference and adherence throughout the therapeutic continuum. The journal is characterized by the rapid reporting of reviews, original research, modeling and clinical studies across all therapeutic areas. Patient satisfaction, acceptability, quality of life, compliance, persistence and their role in developing new therapeutic modalities and compounds to optimize clinical outcomes for existing disease states are major areas of interest for the journal.	<a href="https://www.dovepress.com/patient-preference-and-adherence-journal">https://www.dovepress.com/patient-preference-and-adherence-journal</a>
<b>American Journal of Managed Care</b>	<i>The American Journal of Managed Care</i> is the leading peer-reviewed journal dedicated to issues in managed care. <a href="http://AJMC.com">AJMC.com</a> distributes healthcare news to leading stakeholders across a variety of platforms. Other titles in the franchise include <i>The American Journal of Accountable Care</i> , which publishes research and commentary on innovative healthcare delivery models facilitated by the 2010 Affordable Care Act. AJMC's Evidence-Based series brings together stakeholder views from payers, providers, policymakers and pharmaceutical leaders in oncology and diabetes management.	<a href="https://www.ajmc.com/about/ajmc/journal">https://www.ajmc.com/about/ajmc/journal</a>
<b>Cost-Effectiveness and Resource Allocation</b>	<i>Cost Effectiveness and Resource Allocation</i> considers manuscripts on all aspects of cost-effectiveness analysis, including conceptual or methodological work, economic evaluations, and policy analysis related to resource allocation at a national or international level.	<a href="https://resource-allocation.biomedcentral.com/">https://resource-allocation.biomedcentral.com/</a>
<b>American Journal of Health Promotion</b>	<i>The American Journal of Health Promotion</i> (AJHP) is a peer-reviewed journal advancing the science of health behavior change and the art of creating a culture of well-being. Established in 1986, AJHP provides a forum for the eclectic disciplines that improve workplace, school and community health. We strive to reduce the gap between research and practice by featuring brilliant research and exploring its practical applications.	<a href="http://journals.sagepub.com/home/ahp">http://journals.sagepub.com/home/ahp</a>

<p><b>Population Health Management</b></p>	<p>The only peer-reviewed journal dedicated to the rapidly evolving field of population health, covering the interplay of health outcomes, social determinants of health, and the policies and interventions that move our systems from "acute care" to "health care".</p>	<p><a href="https://home.liebertpub.com/publications/population-health-management/301">https://home.liebertpub.com/publications/population-health-management/301</a></p>
<p><b>Journal of Occupational and Environmental Medicine</b></p>	<p><i>Journal of Occupational and Environmental Medicine</i> is an indispensable guide to good health in the workplace for physicians, nurses, and researchers alike. In-depth, clinically oriented research articles and technical reports keep occupational and environmental medicine specialists up-to-date on new medical developments in the prevention, diagnosis, and rehabilitation of environmentally induced conditions and work-related injuries and illnesses. <i>Journal of Occupational and Environmental Medicine</i> is an excellent source for new ideas, concepts, techniques, and procedures that can be readily applied in the industrial or commercial employment setting.</p>	<p><a href="https://journals.lww.com/joem/pages/default.aspx">https://journals.lww.com/joem/pages/default.aspx</a></p>
